

## Using the Supporters logo

- The Supporters Logo allows supporters of the Campaign to demonstrate their support by using the image in their email signatures or on their website. It does not allow supporters to speak on behalf of the Campaign.

### Minimum size and exclusion zone

- To ensure legibility the logo should never appear any smaller than 35mm in width.
- An area around the logo has been created to maintain clarity. No other visual element should appear within this area. The area has been determined by the height of the 'C'.

If you are unsure about how to use the Supporters logo, please contact [vernon@cuttourismvat.co.uk](mailto:vernon@cuttourismvat.co.uk)

### Exclusion Zone:

### Minimum size

40mm width
